The 2030 Notes offered hereby constitute a further issuance of the 2.750% Notes due 2030, of which \$500,000,000 aggregate principal amount was issued on April 13, 2020 (the “Existing 2030 Notes”). The interest payment to be made with respect to the Additional Notes on October 13, 2020 will include interest deemed to have accrued from and including April 13, 2020, to, but excluding, the settlement date of the Additional Notes. Such accrued interest must be paid by the purchasers of the Additional Notes. The 2025 Notes will mature on May 4, 2025. The 2030 Notes will mature on April 13, 2030. The notes will be issued in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

We may redeem the notes at the redemption prices set forth in this prospectus supplement, plus accrued and unpaid interest thereon to, but excluding, the redemption date. See “Description of Notes—Optional Redemption” in this prospectus supplement.

If we experience a change of control triggering event, we may be required to offer to purchase the notes from holders of the notes. See “Description of Notes—Change of Control” in this prospectus supplement. The notes will be our senior unsecured obligations and will rank equally in right of payment with all of our existing and future senior unsecured indebtedness. Please read the information provided under the caption “Description of Notes” in this prospectus supplement and “Description of Debt Securities” in the accompanying prospectus for a more detailed description of the notes.

Change of Control

Upon the occurrence of both (i) a change of control of Mondelez International and (ii) a downgrade of the notes below an investment grade rating by each of Moody’s Investors Service, Inc. and Standard & Poor’s Ratings Services within a specified period, we will be required to make an offer to purchase the notes at a price equal to 101% of the aggregate principal amount of such notes, plus accrued and unpaid interest to the date of repurchase. See “Description of Notes—Change of Control.”

Covenants

We will issue the notes under an indenture containing covenants that restrict our ability, with significant exceptions, to:

- incur debt secured by liens above a certain threshold;
- engage in certain sale and leaseback transactions above a certain threshold; and
- consolidate, merge, convey or transfer our assets substantially as an entirety.

For more information about these covenants, please see the information under the caption “Description of Debt Securities—Restrictive Covenants” in the accompanying prospectus.

Use of Proceeds

We expect to receive net proceeds of approximately \$1,533,705,000 from the sale of the notes offered hereby, before estimated offering expenses but after deducting the underwriting discount. This amount does not include interest deemed to have accrued from April 13, 2020, to, but excluding, the settlement date in the case of the Additional Notes. Such accrued interest must be paid by the purchasers of the Additional Notes. We intend to use the net proceeds from the sale of the offered notes for the repayment of all remaining amounts outstanding under our revolving credit agreement (as amended from time to time, the “Revolving Credit Agreement”), which we entered into on March 6, 2020 for a 364-day senior unsecured revolving credit facility with the lenders named in the Revolving Credit Agreement, and JPMorgan Chase Bank, N.A. as administrative agent. All remaining net proceeds, if any, will be used for general corporate purposes, including the repayment of outstanding commercial paper borrowings and other debt.

Further Issues

We may from time to time, without notice to or the consent of the holders of any series of notes, create and issue additional notes ranking equally and ratably with such series of notes in all respects and having the same interest rate, maturity and other terms as such series of notes (except for the issue date, issue price and, in some cases, the first payment

of interest or interest accruing prior to the issue date of such additional notes). See “Description of Notes —Further Issues.”

Form and Denomination

The notes will be issued only in registered, book-entry form through The Depository Trust Company, including its participants Clearstream Banking S.A. and Euroclear Bank S.A./N.V. in minimum denominations of \$2,000 in principal amount and multiples of \$1,000 in excess thereof.

Conflicts of Interest

Affiliates of Barclays Capital Inc., BofA Securities, Inc., J.P. Morgan Securities LLC and Wells Fargo Securities, LLC are lenders under our Revolving Credit Agreement, amounts outstanding under which are expected to be repaid with the net proceeds from this offering and, accordingly, will receive a portion of the amounts repaid under our Revolving Credit Agreement. In addition, affiliates of certain of the underwriters are dealers under our commercial paper program and may hold commercial paper thereunder, amounts outstanding under which are expected to be repaid with the net proceeds from this offering and, accordingly, will receive a portion of the amounts repaid under the commercial paper program. Because more than 5% of the net proceeds of the offering are intended to be paid to certain of the underwriters’ affiliates that are lenders under our Revolving Credit Agreement, in their capacities as such, this offering is being made in compliance with Financial Industry Regulatory Authority (“FINRA”) Rule 5121. Since the notes being offered hereby are rated investment grade, pursuant to FINRA Rule 5121, the appointment of a qualified independent underwriter is not necessary in connection with this offering. See “Underwriting (Conflicts of Interest).”

Trustee

Deutsche Bank Trust Company Americas.

Listing

The notes will not be listed on any securities exchange.

Governing Law

The indenture governing the notes is, and the notes will be, governed by, and construed in accordance with, the laws of the State of New York.

Risk Factors

An investment in the notes involves risk. You should consider carefully the specific factors set forth under the heading “[Risk Factors](#)” beginning on page S-5 of this prospectus supplement, as well as the other information set forth and incorporated by reference in this prospectus supplement and the accompanying prospectus, before investing in any of the notes offered hereby.

RISK FACTORS

Investing in the notes involves various risks, including the risks described below and in the documents we incorporate by reference herein. You should carefully consider these risks and the other information contained or incorporated by reference in this prospectus supplement before deciding to invest in the notes, including the risk factors incorporated by reference from our annual report on Form 10-K for the year ended December 31, 2019, as updated by our quarterly reports on Form 10-Q and other SEC filings filed after such annual report. Additional risks not currently known to us or that we currently believe are immaterial also may impair our business operations, financial condition and liquidity.

An active trading market for the 2025 Notes may not develop and the trading market for the 2030 Notes may not be maintained.

The 2025 Notes is a new issue of securities with no established trading markets. The trading market for the 2030 Notes may not be maintained. The notes will not be listed on any securities exchange. We cannot assure you that a trading market for the 2025 Notes will develop, that a trading market for the 2030 Notes will be maintained or of the ability of holders of the notes to sell their notes or of the prices at which holders may be able to sell their notes. The underwriters have advised us that they currently intend to make a market in the 2025 Notes and to continue to make a market in the 2030 Notes. However, the underwriters are not obligated to do so, and any market-making with respect to any of the series of notes may be discontinued, in their sole discretion, at any time without notice. If no active trading markets develop, you may be unable to resell the notes at any price or at their fair market value.

If a trading market does develop for the 2025 Notes and if a trading market for the 2030 Notes is maintained, changes in our ratings or the financial markets could adversely affect the market prices of the notes.

The market prices of the notes will depend on many factors, including, but not limited to, the following:

- ratings on our debt securities assigned by rating agencies;
- the time remaining until maturity of the notes;
- the prevailing interest rates being paid by other companies similar to us;
- our results of operations, financial condition and prospects; and
- the condition of the financial markets.

The condition of the financial markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future, which could have an adverse effect on the market prices of the notes.

Rating agencies continually review the ratings they have assigned to companies and debt securities. Negative changes in the ratings assigned to us or our debt securities could have an adverse effect on the market prices of the notes.

Each series of notes is structurally subordinated to the liabilities of our subsidiaries.

The notes are our obligations exclusively and not of any of our subsidiaries. A significant portion of our operations is conducted through our subsidiaries. Our subsidiaries are separate legal entities that have no obligation to pay any amounts due under the notes or to make any funds available therefor, whether by dividends, loans or other payments. Except to the extent we are a creditor with recognized claims against our subsidiaries, all claims of creditors (including trade creditors) and holders of preferred stock, if any, of our subsidiaries will have priority with respect to the assets of such subsidiaries over our claims (and therefore the claims of our creditors, including holders of the notes). Consequently, the notes will be effectively subordinated to all existing and future liabilities of any of our subsidiaries and any subsidiaries that we may in the future acquire or establish.

Our credit ratings may not reflect all risks of your investments in the notes.

Our credit ratings are an assessment by rating agencies of our ability to pay our debts when due. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of the notes.

These credit ratings may not reflect the potential impact of risks relating to the notes. Agency ratings are not a recommendation to buy, sell or hold any security, and may be revised or withdrawn at any time by the issuing organization. Each agency's rating should be evaluated independently of any other agency's rating.

We may incur additional indebtedness and we are not subject to financial covenants.

The indenture governing the notes does not prohibit us from incurring additional unsecured indebtedness in the future. We are also permitted to incur additional secured indebtedness, subject to the limitations described in the section entitled "Description of Debt Securities—Restrictive Covenants—Limitations on Liens" in the accompanying prospectus, that would be effectively senior to the notes. If we incur additional debt or liabilities, our ability to pay our obligations on the notes could be adversely affected. We expect that we will from time to time incur additional debt and other liabilities. In addition, we are not restricted from paying dividends or issuing or repurchasing our securities under the indenture.

There are no financial covenants in the indenture, and our revolving credit facility agreement contains only limited covenants, which restrict our and our major subsidiaries' ability to grant liens to secure indebtedness and our ability to effect mergers and sales of our and our subsidiaries' properties and assets substantially as an entirety. As a result, you are not protected under the indenture in the event of a highly leveraged transaction, reorganization, a default under our existing indebtedness, restructuring, merger or similar transaction that may adversely affect you, except to the extent described under "Description of Debt Securities—Consolidation, Merger or Sale" in the accompanying prospectus.

USE OF PROCEEDS

We expect to receive net proceeds of approximately \$1,533,705,000 from the sale of the notes offered hereby, before estimated offering expenses but after deducting the underwriting discount. This amount does not include interest deemed to have accrued from April 13, 2020, to, but excluding, the settlement date in the case of the Additional Notes. Such accrued interest must be paid by the purchasers of the Additional Notes. We intend to use the net proceeds from the sale of the offered notes for the repayment of all remaining amounts outstanding under our Revolving Credit Agreement. All remaining net proceeds, if any, will be used for general corporate purposes, including the repayment of outstanding commercial paper borrowings and other debt.

As of April 29, 2020, we had \$1.0 billion principal amount outstanding under our Revolving Credit Agreement, which is accruing at a LBO Rate Advance with an Interest Period of two weeks. If not earlier terminated by us, the Revolving Credit Agreement will mature on the earlier of March 5, 2021 and the date of termination in whole of the commitments pursuant to the terms of the Revolving Credit Agreement. On March 12, 2020, we borrowed \$1.0 billion principal amount under our Revolving Credit Agreement as a strategic decision to have cash on hand in light of current uncertainty in the global markets resulting from the COVID-19 outbreak. On April 1, 2020, we borrowed an additional \$1.25 billion principal amount under our Revolving Credit Agreement primarily to fund the completion of our previously announced acquisition of Give & Go Prepared Foods Corp. On April 13, 2020, we issued \$1.0 billion of U.S. dollar denominated notes, consisting of \$500 million of our 2.125% notes that will mature on April 13, 2023 (the “2.125% Notes”), and \$500 million of our 2.750% notes that will mature on April 13, 2030 (the “2.750% Notes”). We received proceeds of approximately \$991.3 million, net of discounts and associated financing costs from the issuance of the 2.125% Notes and the 2.750% Notes. On April 15, 2020, we repaid \$1.0 billion of the principal amount outstanding under our Revolving Credit Agreement with proceeds from the issuance of our 2.125% Notes and 2.750% Notes and cash on hand. On April 22, 2020, we repaid \$250 million of the principal amount outstanding under our Revolving Credit Agreement with issuances of commercial paper and cash on hand.

Affiliates of Barclays Capital Inc., BofA Securities, Inc., J.P. Morgan Securities LLC and Wells Fargo Securities, LLC are lenders under our Revolving Credit Agreement, amounts outstanding under which are expected to be repaid with the net proceeds from this offering and, accordingly, will receive a portion of the amounts repaid under our Revolving Credit Agreement. In addition, affiliates of certain of the underwriters are dealers under our commercial paper program and may hold commercial paper thereunder, amounts outstanding under which are expected to be repaid with the net proceeds from this offering and, accordingly, will receive a portion of the amounts repaid under the commercial paper program. Because more than 5% of the net proceeds of the offering are intended to be paid to certain of the underwriters’ affiliates that are lenders under our Revolving Credit Agreement, in their capacities as such, this offering is being made in compliance with FINRA Rule 5121. Since the notes being offered hereby are rated investment grade, pursuant to FINRA Rule 5121, the appointment of a qualified independent underwriter is not necessary in connection with this offering. Certain of the underwriters will not make sales to discretionary accounts without the prior written consent of the customer. See “Underwriting (Conflicts of Interest).”

DESCRIPTION OF NOTES

The following description of the particular terms of the notes supplements the description of the general terms and provisions of the debt securities set forth under “Description of Debt Securities” beginning on page 7 of the accompanying prospectus. The accompanying prospectus contains a detailed summary of additional provisions of the notes and of the indenture, dated as of March 6, 2015, between Mondelez International, Inc. and Deutsche Bank Trust Company Americas, as trustee, under which the notes will be issued. To the extent of any inconsistency, the following description replaces the description of the debt securities in the accompanying prospectus. Terms used in this prospectus supplement that are otherwise not defined will have the meanings given to them in the accompanying prospectus.

General

We are offering \$750,000,000 principal amount of the 1.500% Notes due 2025 as a series of notes (the “2025 Notes”), and \$750,000,000 principal amount of the 2.750% Notes due 2030 (the “2030 Notes” and, together with the 2025 Notes, the “notes”) under the indenture. The 2030 Notes constitute a further issuance of the 2.750% Notes due 2030, of which \$500,000,000 aggregate principal amount was issued on April 13, 2020 (the “Existing 2030 Notes”). The Additional Notes will form a single series with, and have the same terms (other than the initial offering price and the issue date), as the Existing 2030 Notes. Upon settlement, the Additional Notes will have the same CUSIP and will trade interchangeably with the Existing 2030 Notes. We expect the Additional Notes and the Existing 2030 Notes to be fungible for U.S. federal income tax purposes. Immediately after giving effect to the issuance of the notes offered hereby, we will have \$1,250,000,000 aggregate principal amount of 2.750% Notes due 2030 outstanding.

Unless an earlier redemption or repurchase, as applicable, has occurred, the entire principal amount of the following notes will mature and become due and payable, together with any accrued and unpaid interest thereon, on:

- May 4, 2025, for the 2025 Notes; and
- April 13, 2030, for the 2030 Notes.

We will issue the notes in fully registered form only and in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

We will not be required to make any mandatory redemption or sinking fund payments with respect to the notes. However, under certain circumstances, we may be required to offer to purchase notes as described under “—Change of Control” below.

Business Day

As used in this prospectus supplement, “business day” means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which commercial banks are authorized or required by law, regulation or executive order to close in New York, New York, United States.

Interest on the Notes

Each 2025 Note will bear interest at a rate of 1.500%. Each 2030 Note will bear interest at a rate of 2.750%.

Interest on the 2025 Notes will accrue from May 4, 2020 and is payable in equal installments semi-annually in arrears on May 4 and November 4 of each year, beginning on November 4, 2020, and interest on the 2030 Notes will accrue from April 13, 2020 and is payable in equal installments semi-annually in arrears on April 13 and October 13 of each year, beginning on October 13, 2020; provided that, in each case, if any such date is not a business day, the interest payment date will be postponed to the next succeeding business day, and no interest will accrue as a result of such delayed payment on amounts payable from and after such interest payment date to the next succeeding business day. The interest payment to be made with respect to the Additional Notes on October 13, 2020 will include interest deemed to have accrued from and including April 13, 2020, to, but excluding, the settlement date of the Additional Notes.

[Table of Contents](#)

For a full semi-annual interest period, interest on each series of notes will be computed on the basis of a 360-day year consisting of twelve 30-day months. For an interest period that is not a full semi-annual interest period, interest on such series of notes will be computed on the basis of a 365-day year and the actual number of days in such interest period.

Interest on each series of notes will be calculated from the last date on which interest was paid on such series of notes (or, with respect to the 2025 Notes, from May 4, 2020, if no interest has been paid on the 2025 Notes, or, with respect to the 2030 Notes, from April 13, 2020, if no interest has been paid on the 2030 Notes) to, but excluding, the next scheduled interest payment date.

We will pay or cause to be paid interest to persons in whose names such series of notes are registered at the close of business 15 days prior to the applicable interest payment date (or to the applicable depository, as the case may be).

If the maturity date or a date fixed for redemption or repurchase is not a business day, then payment of principal, premium, if any, interest, with respect to any series of notes need not be made on such date, but may be made on the next succeeding business day, in each case with the same force and effect as if made on the scheduled maturity date or such date fixed for redemption or repurchase, and no interest shall accrue as a result of such delayed payment on amounts payable from and after the scheduled maturity date or such redemption date or repurchase date, as the case may be, to the next succeeding business day.

Change of Control

If a Change of Control Triggering Event (as defined below) occurs, holders of notes will have the right to require us to repurchase all or any part (equal to \$2,000 or an integral multiple of \$1,000 in excess thereof) of their notes pursuant to the offer described below (the “Change of Control Offer”) on the terms set forth in the notes. In the Change of Control Offer, we will be required to offer payment in cash equal to 101% of the aggregate principal amount of notes repurchased plus accrued and unpaid interest, if any, on the notes repurchased, to the date of purchase (the “Change of Control Payment”). Within 30 days following any Change of Control Triggering Event, we will be required to mail (or otherwise transmit as described below under “—Notices”) a notice to holders of notes (with a copy to the trustee) describing the transaction or transactions that constitute the Change of Control Triggering Event and offering to repurchase the notes on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is sent (the “Change of Control Payment Date”), pursuant to the procedures required by the notes and described in such notice. We must comply with the requirements of Rule 14e-1 under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the notes as a result of a Change of Control Triggering Event. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control provisions of the notes, we will be required to comply with the applicable securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control provisions of the notes by virtue of such conflicts.

On the Change of Control Payment Date, we will be required, to the extent lawful, to:

- accept for payment all notes or portions of notes properly tendered pursuant to the Change of Control Offer;
- deposit with the paying agent an amount equal to the Change of Control Payment in respect of all notes or portions of notes properly tendered; and
- deliver or cause to be delivered to the trustee the notes properly accepted together with an officers’ certificate stating the aggregate principal amount of notes or portions of notes being purchased.

The paying agent will promptly mail (or otherwise deliver in accordance with the procedures of the applicable depository) to each holder of notes properly tendered the purchase price for the notes, and the trustee will promptly authenticate and mail (or cause to be transferred by book-entry) to each holder a new note equal in principal amount to any unpurchased portion of any notes surrendered; *provided* that each new note will be in a principal amount of \$2,000 or an integral multiple of \$1,000 in excess thereof.

[Table of Contents](#)

We will not be required to make an offer to repurchase the notes upon a Change of Control Triggering Event if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for an offer made by us and such third party purchases all notes properly tendered and not withdrawn under its offer.

Our ability to pay cash to holders of notes following the occurrence of a Change of Control Triggering Event may be limited by our then-existing financial resources. Therefore, sufficient funds may not be available when necessary to make any required repurchases.

For purposes of the foregoing discussion of a repurchase at the option of holders of the notes, the following definitions are applicable:

“Below Investment Grade Rating Event” means the notes are rated below an Investment Grade Rating by each of the Rating Agencies (as defined below) on any date from the date of the public notice of an arrangement that could result in a Change of Control (as defined below) until the end of the 60-day period following public notice of the occurrence of the Change of Control (which 60-day period shall be extended so long as the rating of the notes is under publicly announced consideration for possible downgrade by any of the Rating Agencies); *provided* that a below investment grade rating event otherwise arising by virtue of a particular reduction in rating shall not be deemed to have occurred in respect to a particular Change of Control (and thus shall not be deemed a below investment grade rating event for purposes of the definition of Change of Control Triggering Event hereunder) if the rating agencies making the reduction in rating to which this definition would otherwise apply do not announce or publicly confirm or inform the trustee in writing that the reduction was the result, in whole or in part, of any event or circumstance comprised of or arising as a result of, or in respect of, the applicable Change of Control (whether or not the applicable Change of Control shall have occurred at the time of the below investment grade rating event).

“Change of Control” means the occurrence of any of the following: (i) the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of the properties or assets of Mondelēz International and its subsidiaries taken as a whole to any Person (as defined below) or group of related persons for purposes of Section 13(d) of the Exchange Act (a “Group”) other than Mondelēz International or one of its subsidiaries; (ii) the approval by the holders of our common stock of any plan or proposal for the liquidation or dissolution of Mondelēz International (whether or not otherwise in compliance with the provisions of the indenture); (iii) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any Person or Group becomes the beneficial owner, directly or indirectly, of more than 50% of the then outstanding number of shares of Mondelēz International’s voting stock; or (iv) the first day on which a majority of the members of Mondelēz International’s Board of Directors are not Continuing Directors (as defined below).

The definition of Change of Control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of “all or substantially all” of the properties or assets of Mondelēz International and its subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase “substantially all,” there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of notes to require Mondelēz International to repurchase its notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of the assets of Mondelēz International and its subsidiaries taken as a whole to another Person or Group may be uncertain.

“Change of Control Triggering Event” means the occurrence of both a Change of Control and a Below Investment Grade Rating Event.

“Continuing Directors” means, as of any date of determination, any member of the Board of Directors of Mondelēz International who (i) was a member of such Board of Directors on the date of the issuance of the notes; or (ii) was nominated for election or elected to such Board of Directors with the approval of a majority of the Continuing Directors who were members of such Board of Directors at the time of such nomination or election (either by a specific vote or by approval of Mondelēz International’s proxy statement in which such member was named as a nominee for election as a director, without objection to such nomination).

“Investment Grade Rating” means a rating equal to or higher than Baa3 (or the equivalent) by Moody’s (as defined below) and BBB- (or the equivalent) by S&P (as defined below), respectively.

Table of Contents

“Moody’s” means Moody’s Investors Service, Inc., a subsidiary of Moody’s Corporation, and its successors.

“Person” has the meaning set forth in the indenture and includes a “person” as used in Section 13(d)(3) of the Exchange Act.

“Rating Agencies” means (i) each of Moody’s and S&P, and (ii) if any of Moody’s or S&P ceases to rate the notes or fails to make a rating of the notes publicly available for reasons outside of our control, a “nationally recognized statistical rating organization” within the meaning of Section 3(a)(62) under the Exchange Act, selected by us (as certified by a resolution of our Board of Directors) as a replacement agency for Moody’s or S&P, or both of them, as the case may be.

“S&P” means S&P Global Ratings, a division of S&P Global Inc., and its successors.

Optional Redemption

Prior to April 4, 2025 (the date that is one month prior to the scheduled maturity date for the 2025 Notes) (the “2025 Notes Par Call Date”), we may, at our option, redeem the 2025 Notes, in whole at any time or in part from time to time, at a redemption price equal to the greater of (1) 100% of the principal amount of the 2025 Notes to be redeemed or (2) the sum of the present values of each remaining scheduled payment of principal and interest thereon (exclusive of interest accrued to the date of redemption) that would have been payable if the 2025 Notes matured on the 2025 Notes Par Call Date discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate (as defined below) plus 20 basis points, plus accrued and unpaid interest, if any, thereon to, but excluding, the redemption date.

On or after the 2025 Notes Par Call Date, we may, at our option, redeem the 2025 Notes, in whole at any time or in part from time to time, at a redemption price equal to 100% of the principal amount of the 2025 Notes to be redeemed, plus accrued and unpaid interest, if any, thereon to, but excluding, the redemption date.

Prior to January 13, 2030 (the date that is three months prior to the scheduled maturity date for the 2030 Notes) (the “2030 Notes Par Call Date”), we may, at our option, redeem the 2030 Notes, in whole at any time or in part from time to time, at a redemption price equal to the greater of (1) 100% of the principal amount of the 2030 Notes to be redeemed or (2) the sum of the present values of each remaining scheduled payment of principal and interest thereon (exclusive of interest accrued to the date of redemption) that would have been payable if the 2030 Notes matured on the 2030 Notes Par Call Date discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate (as defined below) plus 35 basis points, plus accrued and unpaid interest, if any, thereon to, but excluding, the redemption date.

On or after the 2030 Notes Par Call Date, we may, at our option, redeem the 2030 Notes, in whole at any time or in part from time to time, at a redemption price equal to 100% of the principal amount of the 2030 Notes to be redeemed, plus accrued and unpaid interest, if any, thereon to, but excluding, the redemption date.

“Applicable Par Call Date” means, in the case of the 2025 Notes, the 2025 Notes Par Call Date and, in the case of the 2030 Notes, the 2030 Notes Par Call Date.

“Comparable Treasury Issue” means the U.S. Treasury security or securities selected by an Independent Investment Banker as having an actual or interpolated maturity comparable to the remaining term of the series of notes to be redeemed (assuming that such series of notes matured on the Applicable Par Call Date) that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of a comparable maturity to such remaining term of such series of notes.

“Comparable Treasury Price” means, with respect to any redemption date (1) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotation or (2) if the Independent Investment Banker obtains fewer than four such Reference Treasury Dealer Quotations, the average of all such quotations.

“Independent Investment Banker” means one of the Reference Treasury Dealers appointed by us.

[Table of Contents](#)

“Reference Treasury Dealer” means each of Barclays Capital Inc., BofA Securities, Inc., J.P. Morgan Securities LLC, and Wells Fargo Securities, LLC, or their affiliates, which are primary United States government securities dealers and one other leading primary U.S. government securities dealer in New York City reasonably designated by us; *provided, however*, that if any of the foregoing shall cease to be a primary U.S. government securities dealer in New York City (a “Primary Treasury Dealer”), we will substitute therefor another Primary Treasury Dealer.

“Reference Treasury Dealer Quotation” means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Independent Investment Banker by such Reference Treasury Dealer at 2:00 pm New York time on the third business day preceding such redemption date.

“Treasury Rate” means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity or interpolated maturity (on a day count basis) of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (such price expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

Notwithstanding the foregoing, installments of interest on any series of notes that are due and payable on an interest payment date falling on or prior to a redemption date shall be payable to the registered holders of such notes (or one or more predecessor notes) of record at the close of business 15 days prior to the applicable interest payment date, all as provided in the indenture. Unless we default in the payment of the redemption price, interest on a note or portion thereof called for redemption will cease to accrue on the applicable redemption date.

If money sufficient to pay the redemption price on the notes (or portions thereof) to be redeemed on the redemption date is deposited with the trustee on or before the redemption date and certain other conditions are satisfied, then on and after such redemption date, interest will cease to accrue on such notes (or such portion thereof) called for redemption.

We will, or will cause the trustee on our behalf to, provide notice of a redemption by first-class mail (or otherwise as described below under “—Notices”) to holders of the notes to be redeemed at least 15 and not more than 60 days prior to the date fixed for redemption. Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the notes or portions thereof called for redemption. On or before the redemption date, we will deposit with the trustee or set aside, segregate and hold in trust (if we are acting as paying agent), funds sufficient to pay the redemption price of, and accrued and unpaid interest on, such notes to be redeemed on that redemption date. If fewer than all of the notes are to be redeemed, the trustee will select the particular notes or portions thereof for redemption from the outstanding notes not previously called for redemption by such method as the trustee deems fair and appropriate and in accordance with the applicable procedures of DTC; *provided, however*, that no notes of a principal amount of \$2,000 or less shall be redeemed in part.

Further Issues

We may from time to time, without notice to or the consent of the holders of any series of notes, create and issue additional notes ranking equally and ratably with such series of notes in all respects and having the same interest rate, maturity and other terms as such series of notes (except for the issue date, issue price and, in some cases, the first payment of interest or interest accruing prior to the issue date of such additional notes). The additional notes of any series may only be issued if they would be fungible with the notes for U.S. federal income tax purposes. Any additional notes of any series having such similar terms, together with such series of notes offered by this prospectus supplement (and, in the case of the 2030 Notes, the Existing 2030 Notes), will constitute a single series of notes under the indenture. No additional notes of any series may be issued if an event of default has occurred with respect to such series of notes.

Open Market Purchases

We may, at any time, and from time to time, acquire the notes at any price or prices by means other than a redemption, whether by tender offer, open market purchase, negotiated transactions or otherwise, in accordance with applicable securities laws, so long as such acquisition does not otherwise violate the terms of the indenture.

Book-Entry Notes

The notes will be offered and sold in principal amounts of \$2,000 and integral multiples of \$1,000 in excess thereof. We will issue the notes in the form of one or more permanent global notes in fully registered, book-entry form, which we refer to as the “global notes.” The Depository Trust Company (“DTC”), New York, NY, will act as securities depository for each such global note. The notes will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered note certificate will be issued with respect to each \$500 million of principal amount of the issue of the notes, and an additional certificate will be issued with respect to any remaining principal amount of such issue, which certificates will be deposited with DTC. Unless and until it is exchanged in whole or in part for notes in definitive form, no global note may be transferred except as a whole by the Depository to a nominee of such Depository. Investors may elect to hold interests in the global notes through either the Depository (in the United States) or through Clearstream Banking, *société anonyme* (“Clearstream”) or Euroclear Bank SA/NV, as operator of the Euroclear System (“Euroclear”), if they are participants in such systems, or indirectly through organizations that are participants in such systems.

The information set forth in this section is subject to any change in or reinterpretation of the rules, regulations and procedures of DTC, Clearstream and Euroclear currently in effect. The information in this section concerning DTC, Clearstream and Euroclear has been obtained from sources that we believe to be reliable, but we do not take any responsibility for the accuracy thereof. Investors wishing to use the facilities of any of DTC, Clearstream or Euroclear are advised to confirm the continued applicability of the rules, regulations and procedures of DTC, Clearstream or Euroclear. We will not have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the notes held through the facilities of DTC, Clearstream or Euroclear or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Clearstream and Euroclear each will hold interests on behalf of their participants through customers’ securities accounts in Clearstream’s and Euroclear’s names on the books of their respective depositories, which in turn will hold such interests in customers’ securities accounts in the depositories’ names on the books of DTC.

DTC has advised us that:

- DTC is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Exchange Act.
- DTC holds securities that its participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates.
- Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations.
- DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries.
- Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”).
- The DTC Rules applicable to its Direct and Indirect Participants are on file with the SEC.

[Table of Contents](#)

Purchases of the notes under the DTC system must be made by or through Direct Participants, which will receive a credit for the notes on DTC's records. The ownership interest of each actual purchaser of each note, which we refer to as the "beneficial owner," is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial owners will not receive written confirmation from DTC of their purchase. Beneficial owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the beneficial owner entered into the transaction. Transfers of ownership interests in the notes are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in notes, except in the event that use of the book-entry system for the notes is discontinued. The laws of some jurisdictions require that certain purchasers of securities take physical delivery of such securities in definitive form. Such limits and such laws may impair the ability to own, transfer or pledge beneficial interests in the global notes.

To facilitate subsequent transfers, all notes deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of notes with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the notes; DTC's records reflect only the identity of the Direct Participants to whose accounts such notes are credited, which may or may not be the beneficial owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

So long as DTC or its nominee is the registered owner and holder of the global notes, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the notes represented by the global notes for all purposes under the indenture. Except as described below, beneficial owners of interests in the global notes will not be entitled to have book-entry notes represented by the notes registered in their names, will not receive or be entitled to receive physical delivery of notes in definitive form and will not be considered the owners or holders thereof under the indenture. Accordingly, each beneficial owner must rely on the procedures of DTC and, if the person is not a Direct or Indirect Participant, on the procedures of the Direct or Indirect Participants through which such person owns its interest, to exercise any rights of a holder under the indenture. We understand that under existing industry practices, in the event that we request any action of holders or that an owner of a beneficial interest in the notes desires to give or take any action which a holder is entitled to give or take under the indenture, DTC would authorize the Direct Participants holding the relevant beneficial interests to give or take the action, and those Direct or any Indirect Participants would authorize beneficial owners owning through those Direct or Indirect Participants to give or to take the action or would otherwise act upon the instructions of beneficial owners.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to beneficial owners, will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to DTC. If less than all of the notes within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to notes unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an omnibus proxy to us as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts notes are credited on the record date (identified in a listing attached to the omnibus proxy).

Payments of principal and interest on the notes and redemption proceeds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from an issuer or its agent, on the payable date in accordance with their respective holdings shown on DTC's records. We will send all required reports and notices solely to DTC as long as DTC is the registered holder of the global notes. Neither we, the trustee, nor any other agent of ours or agent

of the trustee will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in global notes or for maintaining, supervising or reviewing any records relating to the beneficial ownership interests. Payments by Direct or Indirect Participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in “street name” and will be the responsibility of the Direct or Indirect Participants and not of DTC, our agent or us, subject to any statutory or regulatory requirements as may be in effect from time to time. Payments of principal of and interest on the notes and redemption proceeds to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of us or our agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the beneficial owners will be the responsibility of Direct and Indirect Participants.

A beneficial owner shall give notice to elect to have its notes purchased or tendered, through its Participant, to the tender agent, and shall effect delivery of such notes by causing the Direct Participant to transfer the Participant’s interest in the notes, on DTC’s records, to the tender agent. The requirement for physical delivery of notes in connection with an optional tender or a mandatory purchase will be deemed satisfied when the ownership rights in the notes are transferred by Direct Participants on DTC’s records and followed by a book-entry credit of tendered notes to the tender agent’s DTC account.

DTC may discontinue providing its services as depository with respect to the notes at any time by giving reasonable notice to us or our agent. Under such circumstances, in the event that a successor depository is not obtained, note certificates are required to be printed and delivered.

We may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, note certificates will be printed and delivered to DTC.

The information in this section concerning DTC and DTC’s book-entry system has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy thereof.

Clearstream advises that it is incorporated as a limited liability company under the laws of Luxembourg. Clearstream is owned by Cedel International, *société anonyme*, and Deutsche Börse AG. The shareholders of these two entities are, amongst others, financial institutions and institutional investors. Clearstream holds securities for its participating organizations (“Clearstream Participants”) and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to Clearstream is available to other institutions that clear through or maintain a custodial relationship with a Clearstream Participant. In the United States, Clearstream Participants are limited to securities brokers and dealers and banks, and may include the underwriters. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream Participant either directly or indirectly. Clearstream is an indirect participant in DTC. Clearstream provides to Clearstream Participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries.

Clearstream has established an electronic bridge with Euroclear Bank SA/NV to facilitate settlement of trades between Clearstream and Euroclear. As a registered bank in Luxembourg, Clearstream is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector.

Distributions with respect to the notes held beneficially through Clearstream will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures, to the extent received by Clearstream.

Euroclear advises that it was created in 1968 to hold securities for participants of Euroclear (“Euroclear Participants”) and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing, and interfaces with domestic markets in several countries. The Euroclear System is owned by Euroclear Clearance System Public Limited Company (ECSpIc) and operated through a license agreement by Euroclear Bank S.A./N.V., a bank incorporated under the laws of the Kingdom of Belgium (the “Euroclear Operator”), under contract with Euroclear Clearance Systems S.C., a Belgian cooperative corporation (the “Cooperative”). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Euroclear Operator advises that it is regulated and examined by the Belgian Banking and Finance Commission and the National Bank of Belgium.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law (collectively, the “Terms and Conditions”). The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear Participants, and has no record of or relationship with persons holding through Euroclear Participants.

Distributions with respect to the notes held beneficially through Euroclear will be credited to the cash accounts of Euroclear Participants in accordance with the Terms and Conditions, to the extent received by the U.S. depository for Euroclear.

Notes will not be issued in definitive form except in very limited circumstances. If any of Euroclear, Clearstream or DTC notifies us that it is unwilling or unable to continue as a clearing system in connection with the global notes or, in the case of DTC only, DTC ceases to be a clearing system registered under the Exchange Act, and in each case a successor clearing system is not appointed by us within 90 days after receiving such notice from Euroclear, Clearstream or DTC or on becoming aware that DTC is no longer so registered, we will issue or cause to be issued individual certificates in registered form on registration of transfer of, or in exchange for, book-entry interests in the notes represented by such global notes upon delivery of such global notes for cancellation.

Global Clearance and Settlement Procedures

Initial settlement for the notes will be made in immediately available funds. Secondary market trading between the Direct or Indirect Participants will occur in the ordinary way in accordance with the Depository’s rules and will be settled in immediately available funds using DTC’s Same-Day Funds Settlement System. Secondary market trading between Clearstream Participants and/or Euroclear Participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream and Euroclear and will be settled using the procedures applicable to conventional Eurobonds in immediately available funds.

Cross-market transfers between persons holding directly or indirectly through DTC on the one hand, and directly or indirectly through Clearstream or Euroclear Participants, on the other, will be effected in DTC in accordance with the DTC rules on behalf of the relevant European international clearing system by its U.S. depository; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant

[Table of Contents](#)

European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. depository to take action to effect final settlement on its behalf by delivering interests in the notes to or receiving interests in the notes from DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream Participants and Euroclear Participants may not deliver instructions directly to DTC.

Because of time-zone differences, credits of interests in the notes received in Clearstream or Euroclear as a result of a transaction with a Depository Participant will be made during subsequent securities settlement processing and will be credited the business day following the DTC settlement date. Such credits or any transactions involving interests in such notes settled during such processing will be reported to the relevant Euroclear or Clearstream Participants on such business day. Cash received in Clearstream or Euroclear as a result of sales of interests in the notes by or through a Clearstream Participant or a Euroclear Participant to a Depository Participant will be received with value on the DTC settlement date but will be available in the relevant Clearstream or Euroclear cash account only as of the business day following settlement in DTC.

Although DTC, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of the notes among participants of DTC, Clearstream and Euroclear, they are under no obligation to perform or continue to perform such procedures and such procedures may be discontinued at any time.

DTC, Clearstream and Euroclear have each published rules and operating procedures designed to facilitate transfers of beneficial interests in global notes among participants and accountholders of DTC, Clearstream and Euroclear. However, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or changed at any time. We will not be responsible for any performance by DTC, Clearstream or Euroclear or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations and we will have no liability for any aspect of the records relating to or payments made on account of beneficial interests in the notes represented by global notes or for maintaining, supervising or reviewing any records relating to such beneficial interests.

Notices

Notices to holders of the notes will be sent by first-class mail postage prepaid or by email in PDF format to each registered holders' physical address or email address as it appears in the security register (or otherwise transmit such notice in accordance with the procedures of the applicable depository). Notices can only be mailed or transmitted to the registered holder of the notes, and consequently holders of beneficial interests will not receive these notices unless we reissue the notes in fully certificated form.

Governing Law

The indenture governing the notes is, and the notes for all purposes will be, governed by, and construed in accordance with, the laws of the State of New York.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a general summary of certain material U.S. federal income tax consequences of the acquisition, ownership and disposition of the notes. This discussion is based upon the Internal Revenue Code of 1986, as amended (the “Code”), the U.S. Treasury regulations promulgated thereunder, administrative pronouncements and judicial decisions, all as of the date hereof and all of which are subject to change, possibly with retroactive effect. Unless otherwise indicated, this summary addresses only the U.S. federal income tax consequences relevant to investors that purchase notes at the time of original issuance at their “issue price” and applies only to beneficial owners that hold the notes as “capital assets” within the meaning of Section 1221 of the Code.

This summary does not address all of the U.S. federal income tax considerations that may be relevant to a particular holder in light of the holder’s individual circumstances or to holders subject to special rules under U.S. federal income tax laws, such as banks and other financial institutions, insurance companies, real estate investment trusts, regulated investment companies, tax-exempt organizations, entities and arrangements classified as partnerships for U.S. federal income tax purposes and other pass-through entities (and investors in such entities or arrangements), dealers in securities or currencies, traders in securities that elect to use a mark-to-market method of accounting, persons liable for U.S. federal alternative minimum tax, U.S. Holders (as defined below) whose functional currency is not the U.S. dollar, certain U.S. expatriates, persons subject to special tax accounting rules under Section 451(b) of the Code, and persons holding notes as part of a “straddle,” “hedge,” “conversion transaction,” or other integrated investment. The discussion does not address any foreign, state, local or non-income tax consequences of the acquisition, ownership or disposition of the notes.

As used in this prospectus supplement, the term “U.S. Holder” means a beneficial owner of a note that is for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation created or organized in or under the laws of the United States or any state or political subdivision thereof;
- an estate, the income of which is subject to U.S. federal income tax regardless of its source; or
- a trust, if (i) a U.S. court is able to exercise primary supervision over the trust’s administration and one or more “United States persons” (as defined in the Code) have the authority to control all substantial decisions of the trust, or (ii) the trust has in effect a valid election to be treated as a “United States person” (as defined in the Code).

The term “Non-U.S. Holder” means any beneficial owner of a note that is not a U.S. Holder and is not a partnership (including any entity or arrangement classified as a partnership for U.S. federal income tax purposes). For the purposes of this summary, U.S. Holders and Non-U.S. Holders are referred to collectively as “holders.”

If a partnership (or other entity or arrangement classified as a partnership for U.S. federal income tax purposes) is a beneficial owner of a note, the U.S. federal income tax treatment of a partner in that partnership will generally depend upon the status of the partner and the activities of the partnership. A beneficial owner of a note that is a partnership and partners in such partnerships are urged to consult with their own tax advisors regarding the U.S. federal income and other tax consequences of the acquisition, ownership and disposition of the notes.

This discussion is for general purposes only. Holders are urged to consult their own tax advisors regarding the application of the U.S. federal income tax laws to their particular situations and the consequences under federal estate or gift tax laws, as well as foreign, state, and local laws and tax treaties, and the possible effects of changes in tax laws.

2030 Notes

We intend to treat the issuance of the 2030 Notes as a “qualified reopening” of the Existing 2030 Notes for U.S. federal income tax purposes, and the following discussion assumes such treatment will be respected. Accordingly, the 2030 Notes are expected to have the same issue date and the same issue price as the Existing 2030 Notes for U.S. federal income tax purposes.

Payments under Certain Events

We may be required, under certain circumstances, to pay additional amounts in redemption of the notes in addition to the stated principal amount of and interest on the notes (as described in “Description of Notes—Change of Control”). Although the issue is not free from doubt, we intend to take the position that the possibility of payment of such additional amounts in redemption of the notes does not result in the notes being treated as contingent payment debt instruments under the applicable U.S. Treasury regulations. Our determination is binding on a holder, unless such holder explicitly discloses to the U.S. Internal Revenue Service (“IRS”) on its tax return for the year during which it acquires the notes that it is taking a different position. However, our position is not binding on the IRS. If the IRS takes a contrary position to that described above, the timing and character of a holder’s income and the timing of our deductions with respect to the notes could be affected. Holders of notes should consult their tax advisors regarding the tax consequences of the notes being treated as contingent payment debt instruments. The remainder of this discussion assumes that the notes will not be treated as contingent payment debt instruments for U.S. federal income tax purposes.

U.S. Holders

Payments of Interest

Except as described below with respect to pre-issuance accrued interest, interest on notes beneficially owned by a U.S. Holder will generally be taxable as ordinary interest income at the time it is paid or accrued in accordance with the U.S. Holder’s regular method of accounting for U.S. federal income tax purposes.

Pre-Issuance Accrued Interest.

A portion of a U.S. Holder’s purchase price for the 2030 Notes will be allocable to interest that accrued prior to the date such notes are purchased (“pre-issuance accrued interest”). On the first interest payment date, a portion of the interest received in an amount equal to the pre-issuance accrued interest generally will be treated as a return of the pre-issuance accrued interest and not as a payment of interest on the 2030 Notes. Pre-issuance accrued interest should be excluded from a U.S. Holder’s initial tax basis in a 2030 Note and the amount treated as a return of pre-issuance accrued interest is not taxable when received. U.S. Holders should consult their tax advisors concerning the tax treatment of pre-issuance accrued interest.

Bond Premium.

If a U.S. Holder’s initial tax basis in a note (which will generally equal the cost of the note to such holder (excluding amounts allocated to pre-issuance accrued interest)) exceeds the note’s stated principal amount, the note will be treated as having been acquired with “bond premium” equal to such excess. A U.S. Holder may elect to amortize such bond premium, in which case the amount required to be included in the U.S. Holder’s income each year with respect to stated interest on the note will be reduced by the amount of amortizable bond premium allocable (based on the note’s yield to maturity) to that year. However, because the notes may be redeemed by us prior to maturity at a premium, special rules apply that may reduce, eliminate or defer the amount of bond premium that a U.S. Holder may amortize with respect to the notes. Any election to amortize bond premium will apply to all bonds (other than bonds the interest on which is excludable from the gross income for U.S. federal income tax purposes) held by a U.S. Holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. Holder, and is irrevocable without the consent of the IRS. If a U.S. Holder does not elect to amortize bond premium, any bond premium on a note will decrease any gain or increase any loss such holder may otherwise recognize on disposition of such note.

Sale, Exchange, Redemption or Other Taxable Disposition of the Notes

Upon the sale, exchange, redemption or other taxable disposition of the notes, a U.S. Holder will generally recognize gain or loss equal to the difference, if any, between (i) the amount realized upon the sale, exchange, redemption or other taxable disposition of the notes, other than amounts attributable to accrued and unpaid interest (which, except in the case of pre-issuance accrued interest, will be treated as ordinary interest income to the extent such interest has not been previously included in income) and (ii) the U.S. Holder’s adjusted tax basis in the notes. The amount realized by a U.S. Holder is the sum of cash plus the fair market value of all other property received on such sale, exchange, redemption or other taxable

[Table of Contents](#)

disposition. A U.S. Holder's adjusted tax basis in a note will generally equal the cost of the note to such holder (excluding amounts allocated to pre-issuance accrued interest), reduced by the amount of any amortizable bond premium previously used to offset such holder's interest income.

The gain or loss a U.S. Holder recognizes on the sale, exchange, redemption or other taxable disposition of the notes will generally be capital gain or loss. Such gain or loss will generally be long-term capital gain or loss if, at the time of the sale, exchange, redemption or other taxable disposition, the U.S. Holder's holding period in the notes exceeds one year. For non-corporate U.S. Holders, long-term capital gains are currently taxed at a lower rate than ordinary income. The deductibility of capital losses is subject to limitations. U.S. Holders are urged to consult their own tax advisors regarding the deductibility of capital losses in light of their particular circumstances.

Medicare Tax

Certain U.S. Holders (including individuals, estates and certain trusts) must pay an additional 3.8% Medicare tax on the lesser of (a) the U.S. person's "net investment income" (or undistributed "net investment income" in the case of an estate or trust) for the relevant taxable year and (b) the excess of the U.S. person's modified gross income for the taxable year over a certain threshold (which in the case of individuals will be between \$125,000 and \$250,000 depending on the individual's circumstances). Net investment income will generally include interest income and net gains from the disposition of the notes, unless such interest income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). A U.S. Holder that is an individual, estate or trust should consult its tax advisor regarding the applicability of the Medicare tax to its income and gains in respect of its investment in the notes.

Backup Withholding and Information Reporting

In general, a U.S. Holder will be subject to U.S. federal backup withholding tax at the applicable rate (currently 24%) with respect to payments on the notes and the proceeds of a sale, exchange, redemption or other taxable disposition of the notes, unless (i) the U.S. Holder provides its taxpayer identification number to the applicable withholding agent and certifies, under penalty of perjury, that it is not subject to backup withholding on an IRS Form W-9 (Request for Taxpayer Identification Number and Certification) or a suitable substitute form (or other applicable certificate) and otherwise complies with the applicable requirements of the backup withholding rules or (ii) the U.S. Holder properly establishes an exemption from these rules. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a U.S. Holder may be allowed as a credit against such U.S. Holder's U.S. federal income tax liability and may entitle such U.S. Holder to a refund, provided the required information is furnished to the IRS in a timely manner. In addition, payments on the notes made to, and the proceeds of a sale or other taxable disposition by, a U.S. Holder will generally be subject to information reporting requirements, unless such U.S. Holder is an exempt recipient and appropriately establishes that exemption.

Non-U.S. Holders

Payments of Interest

Subject to the discussions below under "—Backup Withholding and Information Reporting" and "—Foreign Account Tax Compliance Act," a Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on interest paid on the notes as long as that interest is not "effectively connected" with the Non-U.S. Holder's conduct of a trade or business within the United States and:

- the Non-U.S. Holder does not, directly or indirectly, actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote;
- the Non-U.S. Holder is not a "controlled foreign corporation" for U.S. federal income tax purposes that is related to us, actually or by attribution, through stock ownership;

Table of Contents

- the Non-U.S. Holder is not a bank receiving the interest pursuant to a loan agreement entered into in the ordinary course of the Non-U.S. Holder's trade or business; and
- either (i) the Non-U.S. Holder certifies under penalties of perjury on IRS Form W-8BEN or W-8BEN-E, as applicable, or a suitable substitute form (or other applicable certificate) that it is not a U.S. person, and provides its name, address and certain other required information or (ii) a securities clearing organization, bank or other financial institution that holds customers' securities in the ordinary course of its trade or business and holds the notes on behalf of the Non-U.S. Holder certifies under penalties of perjury that the certification referred to in clause (i) has been received from the Non-U.S. Holder or an intermediate financial institution and furnishes to the applicable withholding agent a copy thereof.

A Non-U.S. Holder that does not qualify for exemption from withholding as described above will generally be subject to withholding of U.S. federal income tax at a rate of 30% on payments of interest on the notes (except as described below with respect to effectively connected income). A Non-U.S. Holder may be entitled to the benefits of an income tax treaty under which interest on the notes is subject to a reduced rate of withholding tax or is exempt from U.S. withholding tax, provided the Non-U.S. Holder furnishes the applicable withholding agent with a properly executed IRS Form W-8BEN or W-8BEN-E, as applicable, or a suitable substitute form (or other applicable certificate) claiming the reduction or exemption and the Non-U.S. Holder complies with any other applicable procedures.

Sale, Exchange, Redemption or Other Taxable Disposition of the Notes

Generally, subject to the discussion below under “—Backup Withholding and Information Reporting,” any gain recognized by a Non-U.S. Holder on the sale, exchange, redemption or other taxable disposition of a note (other than amounts attributable to accrued and unpaid interest, which will be treated as described under “—Payments of Interest” above) will be exempt from U.S. federal income and withholding tax, unless

- the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if an income tax treaty applies, is attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States), in which case the Non-U.S. Holder generally will be subject to U.S. federal income tax in the manner described below under “—Effectively Connected Income”; or
- the Non-U.S. Holder is an individual who is present in the United States for 183 days or more during the taxable year of the sale or other disposition, and certain other conditions are met, in which case the Non-U.S. Holder generally will be subject to U.S. federal income tax at a rate of 30% (unless a lower treaty rate applies) on the amount by which its U.S. source capital gains exceed its U.S. source capital losses.

Effectively Connected Income

If interest or gain recognized by a Non-U.S. Holder on a note is “effectively connected” with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if an income treaty applies, is attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States), the Non-U.S. Holder will be exempt from the withholding tax on interest previously discussed if the Non-U.S. Holder provides the applicable withholding agent with a properly completed and executed IRS Form W-8ECI or a suitable substitute or successor form or such other form as the IRS may prescribe, but the Non-U.S. Holder will generally be subject to U.S. federal income tax on such interest or gain as if it were a “United States person” (as defined in the Code). In addition to such U.S. federal income tax, if the Non-U.S. Holder is treated as a corporation for U.S. federal income tax purposes, it may be subject to an additional branch profits tax currently at a rate of 30%, or such lower rate provided by an applicable income tax treaty.

Backup Withholding and Information Reporting

Under current U.S. Treasury regulations, payors must report annually to the IRS and to each Non-U.S. Holder the amount of interest paid to the Non-U.S. Holder and the amount of tax withheld, if any, from those payments. These reporting requirements apply regardless of whether U.S. withholding tax on such payments was reduced or eliminated by any

[Table of Contents](#)

applicable tax treaty or otherwise. Copies of the information returns reporting those payments and the amounts withheld may also be made available to the tax authorities in the country where a Non-U.S. Holder is a resident under the provisions of an applicable income tax treaty or agreement.

Under some circumstances, U.S. Treasury regulations require backup withholding and additional information reporting on payments of interest and other “reportable payments.” Such backup withholding and additional information reporting will not apply to payments on the notes made by us or our paying agent to a Non-U.S. Holder if the certification described above under “—Payments of Interest” is received from the Non-U.S. Holder.

Backup withholding and information reporting will generally not apply to payments of proceeds from the sale or other disposition of a note made to a Non-U.S. Holder by or through the foreign office of a broker. However, information reporting requirements, and possibly backup withholding, will apply if such broker is, for U.S. federal income tax purposes, a “United States person” (as defined in the Code) or has certain other enumerated connections with the United States, unless such broker has documentary evidence in its records that the Non-U.S. Holder is not a “United States person” (as defined in the Code) and certain other conditions are met, or the Non-U.S. Holder otherwise establishes an exemption. Payments of proceeds from the sale or other disposition of a note made to a Non-U.S. Holder by or through the U.S. office of a broker are subject to information reporting and backup withholding at the applicable rate unless the Non-U.S. Holder certifies, under penalties of perjury, that it is not a “United States person” (as defined in the Code) and it satisfies certain other conditions, or the Non-U.S. Holder otherwise establishes an exemption. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a Non-U.S. Holder may be allowed as a credit against such Non-U.S. Holder’s U.S. federal income tax liability and may entitle such Non-U.S. Holder to a refund, provided the required information is furnished to the IRS in a timely manner.

Non-U.S. Holders are urged to consult their tax advisors regarding the application of information reporting and backup withholding in their particular situations, the availability of an exemption therefrom, and the procedures for obtaining such an exemption, if available.

Foreign Account Tax Compliance Act

Under Sections 1471 through 1474 of the Code (such Sections commonly referred to as “FATCA”), a 30% U.S. federal withholding tax may apply to any interest income paid on the notes to (a) a foreign financial institution (whether such foreign financial institution is the beneficial owner or an intermediary), unless such foreign financial institution complies with the requirements imposed by FATCA to collect and report to the United States substantial information regarding such institution’s U.S. account holders and meets certain other specified requirements or (b) a non-financial foreign entity (whether such non-financial foreign entity is the beneficial owner or an intermediary), unless such entity certifies that it does not have any “substantial United States owners” or provides certain information regarding the entity’s “substantial United States owners” and such entity meets certain other specified requirements. An intergovernmental agreement between the United States and an applicable foreign country may modify the foregoing requirements.

While withholding under FATCA would also have applied to payments of gross proceeds from the sale or other disposition of the notes on or after January 1, 2019, recently proposed U.S. Treasury regulations eliminate FATCA withholding on payments of gross proceeds entirely. Although these recent Treasury regulations are not final, they can be relied upon until final U.S. Treasury regulations are issued.

You should consult your own tax advisors regarding FATCA and whether it may be relevant to your purchase, ownership and disposition of the notes.

The U.S. federal income tax discussion set forth above is included for general information only and may not be applicable depending upon a holder’s particular situation. Holders are urged to consult their own tax advisors with respect to the tax consequences to them of the acquisition, ownership and disposition of the notes, including the tax consequences under state, local, estate, foreign and other tax laws and tax treaties and the possible effects of changes in U.S. or other tax laws.

The underwriters are committed to take and pay for all of the notes being offered, if any are taken. Notes sold by the underwriters to the investors will initially be offered at the initial offering prices set forth on the cover of this prospectus supplement. If all the notes are not sold at the initial offering prices, the underwriters may change the offering price and the other selling terms. The offering of the notes by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

We estimate that the expenses of the offering that are payable by us, including printing fees, legal and accounting expenses and excluding underwriting discounts and commissions, will be approximately \$1,225,000. The underwriters have agreed to reimburse us \$750,000 for certain fees and expenses relating to this offering.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the several underwriters may be required to make in respect of those liabilities.

The 2025 Notes are a new issue of securities with no established trading market. The trading market for the 2030 Notes may not be maintained. The notes will not be listed on any securities exchange. We have been advised by the underwriters that the underwriters intend to make a market in the notes but are not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of the trading market for the notes.

Affiliates of Barclays Capital Inc., BofA Securities, Inc., J.P. Morgan Securities LLC and Wells Fargo Securities, LLC are lenders under our Revolving Credit Agreement, amounts outstanding under which are expected to be repaid with the net proceeds from this offering and, accordingly, will receive a portion of the amounts repaid under the Revolving Credit Agreement. In addition, affiliates of certain of the underwriters are dealers under our commercial paper program and may hold commercial paper thereunder, amounts outstanding under which are expected to be repaid with the net proceeds from this offering and, accordingly, will receive a portion of the amounts repaid under the commercial paper program. Because more than 5% of the net proceeds of the offering are intended to be paid to certain of the underwriters' affiliates that are lenders under our Revolving Credit Agreement, in their capacities as such, this offering is being made in compliance with FINRA Rule 5121. Since the notes being offered hereby are rated investment grade, pursuant to FINRA Rule 5121, the appointment of a qualified independent underwriter is not necessary in connection with this offering. Certain of the underwriters will not make sales to discretionary accounts without the prior written consent of the customer. Separately,

Table of Contents

affiliates of certain of the underwriters are lenders under our other revolving credit agreement, which we entered into on March 24, 2020 for a 364-day senior unsecured revolving credit facility in an aggregate principal amount of \$1.75 billion with the lenders named in such 364-day senior unsecured revolving credit facility and Citibank, N.A. as administrative agent, which we amended on April 1, 2020, for a commitment increase of \$200 million with the administrative agent and BNP Paribas, increasing to \$1.95 billion aggregate principal amount available under such 364-day senior unsecured revolving credit facility.

In connection with the offering, the underwriters may purchase and sell notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of notes than they are required to purchase in the offering. The underwriters may close out any short positions by purchasing notes in the open market. A short position is more likely to be created if underwriters expect that there may be downward pressure on the price of the notes in the open market while the offering is in progress. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

These activities by the underwriters, as well as other purchases by the underwriters for their own accounts, may stabilize, maintain or otherwise affect the market price of the notes. As a result, the price of the notes may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected in the over-the-counter market or otherwise.

The notes are being offered for sale in the United States and in jurisdictions outside the United States, subject to applicable law.

Such investments and securities activities may involve our securities and/or instruments of our company or our affiliates. Certain of the underwriters or their affiliates that have a lending relationship with us routinely hedge, and certain other of these underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, the underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect current or future trading prices of the notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Affiliates of certain of the underwriters are parties to our revolving credit facilities, our term loan agreements, our 364-day credit facilities and are also lenders under our commercial paper program for which these underwriters and affiliates have been paid customary fees. Affiliates of certain of the underwriters may receive some of the proceeds from this offering. In addition, the underwriters or their affiliates have provided in the past, or are currently providing, other investment and commercial banking and financial advisory services to us and our affiliates. The underwriters or their affiliates may in the future provide various investment and commercial banking and other services to us and our affiliates, for which they would receive customary compensation. Certain underwriters acted as underwriters for our issuance of the Existing 2030 Notes.

USE OF PROCEEDS

Unless we otherwise state in the applicable prospectus supplement, we will use the net proceeds from the sale of the offered securities for general corporate purposes. General corporate purposes may include repayment of debt, additions to working capital, capital expenditures, investments in our subsidiaries, possible acquisitions and the repurchase, redemption or retirement of securities, including our common stock. The net proceeds may be temporarily invested or applied to repay short-term or revolving debt prior to use.

DESCRIPTION OF DEBT SECURITIES

The debt securities covered by this prospectus will be our direct unsecured obligations. The debt securities will be issued in one or more series under an indenture between us and Deutsche Bank Trust Company Americas, as trustee.

This prospectus briefly describes the material indenture provisions. Those descriptions are qualified in all respects by reference to the actual text of the indenture. For your reference, in the summary that follows, we have included references to section numbers of the indenture so that you can more easily locate these provisions.

The material financial, legal and other terms particular to debt securities of each series will be described in the prospectus supplement relating to the debt securities of that series. The prospectus supplement relating to the debt securities of the series will be attached to the front of this prospectus. The prospectus supplement will also state whether any of the terms summarized below do not apply to the series of debt securities being offered. You should read the more detailed provisions of the indenture, including the defined terms, for provisions that may be important to you. You should also read the particular terms of a series of debt securities, which will be described in more detail in the applicable prospectus supplement.

Prospective purchasers of debt securities should be aware that special United States federal income tax, accounting and other considerations not addressed in this prospectus may be applicable to instruments such as the debt securities. The prospectus supplement relating to an issue of debt securities will describe these considerations, if they apply.

Capitalized terms used below are defined under “Defined Terms.”

General

The debt securities will rank equally with all of our other unsecured debt. The indenture does not limit the amount of debt we may issue and provides that additional debt securities may be issued up to the aggregate principal amount authorized by a board resolution. We may issue the debt securities from time to time in one or more series with the same or various maturities, at par, at a discount or at a premium. The prospectus supplement relating to any debt securities being offered will include specific terms relating to the offering, including the particular amount, price and other terms of those debt securities. These terms will include some or all of the following:

- the title of the debt securities;
- any limit upon the aggregate principal amount of the debt securities;
- the date or dates on which the principal of the debt securities will be payable or their manner of determination;
- if the securities will bear interest:
 - the interest rate or rates;
 - the date or dates from which any interest will accrue;
 - the interest payment dates for the debt securities; and
 - the regular record date for any interest payable on any interest payment date;
 - or, in each case, their method of determination;
- the place or places where the principal of, and any premium and interest on, the debt securities will be payable;

Table of Contents

- whether the amounts of payments of principal of, and any premium and interest on, the debt securities are to be determined with reference to an index, formula or other method, and if so, the manner in which such amounts will be determined;
- whether the debt securities will be issued in whole or in part in the form of global securities and, if so, the depositary and the global exchange agent for the global securities, whether permanent or temporary;
- whether the debt securities will be issued as registered securities, bearer securities or both, and any restrictions on the exchange of one form of debt securities for another and on the offer, sale and delivery of the debt securities in either form;
- if the debt securities are issuable in definitive form upon the satisfaction of certain conditions, the form and terms of such conditions;
- if denominations other than \$1,000 or any integral multiple of \$1,000, the denominations in which the debt securities will be issued;
- the period or periods within which, the price or prices at which and the terms on which any of the debt securities may be redeemed, in whole or in part at our option, and any remarketing arrangements;
- the terms on which we would be required to redeem, repay or purchase debt securities required by any sinking fund, mandatory redemption or similar provision; and the period or periods within which, the price or prices at which and the terms and conditions on which the debt securities will be so redeemed, repaid and purchased in whole or in part;
- the portion of the principal amount of the debt securities that is payable on the declaration of acceleration of the maturity, if other than their principal amount; these debt securities could include original issue discount, or OID, debt securities or indexed debt securities, which are each described below;
- any special tax implications of the debt securities, including whether and under what circumstances, if any, we will pay additional amounts under any debt securities held by a person who is not a United States person for tax payments, assessments or other governmental charges and whether we have the option to redeem the debt securities which are affected by the additional amounts instead of paying the additional amounts;

Table of Contents

- whether the debt securities shall be issued with guarantees and, if so, the terms of any guarantee of the payment of principal and interest with respect to the debt securities and any corresponding changes to the indenture; or
- any other specific terms of the debt securities.

(Section 301)

We may issue debt securities as original issue discount, or OID, debt securities. OID debt securities bear no interest or bear interest at below-market rates and are sold at a discount below their stated principal amount. If we issue OID debt securities, the prospectus supplement will contain the issue price of the securities and the rate at which and the date from which discount will accrete.

We may also issue indexed debt securities. Payments of principal of, and any premium and interest on, indexed debt securities are determined with reference to the rate of exchange between the currency or currency unit in which the debt security is denominated and any other currency or currency unit specified by us, to the relationship between two or more currencies or currency units, to the price of one or more specified securities or commodities, to one or more securities or commodities exchange indices or other indices or by other similar methods or formulas, all as specified in the prospectus supplement.

Consolidation, Merger or Sale

We have agreed not to consolidate with or merge into any other corporation or convey or transfer our properties and assets substantially as an entirety to any person, unless:

- any successor is a corporation organized under the laws of the United States, any state of the United States or the District of Columbia;
- the successor corporation expressly assumes by a supplemental indenture the due and punctual payment of the principal of, and any premium and interest on, all the debt securities and the performance of every covenant in the indenture that we would otherwise have to perform or observe;
- immediately after the effective date of the transaction, no event of default has occurred and is continuing under the indenture; and
- we deliver to the trustee an officers' certificate and an opinion of counsel, each stating that the consolidation, merger, conveyance or transfer and the supplemental indenture comply with these provisions.

The successor corporation will assume all our obligations under the indenture as if it were an original party to the indenture. After assuming such obligations, the successor corporation will have all our rights and powers under the indenture.

(Section 801)

Waivers Under the Indenture

Under the indenture, the holders of a majority in aggregate principal amount of the outstanding debt securities of any series, may on behalf of all holders of that series:

- waive our compliance with certain covenants of the indenture; and

(Section 1009)

- waive any past default under the indenture, except:
 - a default in the payment of the principal of, or any premium or interest on, any debt securities of the series; and

[Table of Contents](#)

- a default under any provision of the indenture which itself cannot be modified without the consent of the holders of each affected debt security of the series.

(Section 513)

Events of Default

When we use the term “Event of Default” in the indenture with respect to a particular series of debt securities, we mean any of the following:

- we fail to pay interest on any debt security of that series for 30 days after payment was due;
- we fail to make payment of the principal of, or any premium on, any debt security of that series when due;
- we fail to make any sinking fund payment when due with respect to debt securities of that series;
- we fail to perform any other covenant or warranty in the indenture and this failure continues for 90 days after we receive written notice of it from the trustee or holders of 25% in principal amount of the outstanding debt securities of that series (with a copy to the trustee);
- we or a court take certain actions relating to bankruptcy, insolvency or reorganization of our company; or
- any other event of default that may be specified for the debt securities of the series or in the board resolution with respect to the debt securities of that series.

(Section 501)

The supplemental indenture or the form of security for a particular series of debt securities may include additional Events of Default or changes to the Events of Default described above. The Events of Default applicable to a particular series of debt securities will be discussed in the prospectus supplement relating to such series.

A default with respect to a single series of debt securities under the indenture will not necessarily constitute a default with respect to any other series of debt securities issued under the indenture. A default under our other indebtedness will not be a default under the indenture. The trustee may withhold notice to the holders of debt securities of any default and shall be fully protected in so withholding, except for defaults that involve our failure to pay principal or interest, if it determines in good faith that the withholding of notice is in the interest of the holders. (Section 602)

If an Event of Default for any series of debt securities occurs and continues (other than an Event of Default involving our bankruptcy, insolvency or reorganization), either the trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of the affected series may require us upon notice in writing to us, to immediately repay the entire principal (or, in the case of (a) OID debt securities, a lesser amount as provided in those OID debt securities or (b) indexed debt securities, an amount determined by the terms of those indexed debt securities), of all the debt securities of such series together with accrued interest on the debt securities.

If an Event of Default occurs which involves our bankruptcy, insolvency or reorganization, then all unpaid principal amounts (or, if the debt securities are (a) OID debt securities, then the portion of the principal amount that is specified in those OID debt securities or (b) indexed debt securities, then the portion of the principal amount that is determined by the terms of those indexed debt securities) and accrued interest on all debt securities of each series will immediately become due and payable, without any action by the trustee or any holder of debt securities. (Section 502)

Subject to certain conditions, the holders of a majority in principal amount of the outstanding debt securities of a series may rescind a declaration of acceleration if all Events of Default, besides the failure to pay principal or interest due solely because of the declaration of acceleration, have been cured or waived. (Section 502)

[Table of Contents](#)

Other than its duties in case of a default, the trustee is not obligated to exercise any of its rights or powers under the indenture at the request, order or direction of any holders, unless the holders offer the trustee indemnity or security reasonably satisfactory to it. The holders of a majority in principal amount outstanding of any series of debt securities may, subject to certain limitations, direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any power conferred upon the trustee, for any series of debt securities.

The indenture requires us to file each year with the trustee, an officer's certificate that states that:

- the signing officer has supervised a review of the activities and performance under the indenture; and
- to the best of his or her knowledge, based on the review, we comply with all conditions and covenants of the indenture.

The indenture requires us to file with the trustee an officer's certificate within 30 days of any officer becoming aware of any default specifying such default or Event of Default and what action we are taking or propose to take with respect thereto.

(Section 1005)

A judgment for money damages by courts in the United States, including a money judgment based on an obligation expressed in a foreign currency, will ordinarily be rendered only in U.S. dollars. New York statutory law provides that a court shall render a judgment or decree in the foreign currency of the underlying obligation and that the judgment or decree shall be converted into U.S. dollars at the exchange rate prevailing on the date of entry of the judgment or decree. If a court requires a conversion to be made on a date other than a judgment date, the indenture requires us to pay additional amounts necessary to ensure that the amount paid in U.S. dollars to a holder is equal to the amount due in such foreign currency.

(Section 516)

Payment

We will pay the principal of, and any premium and interest on, fully registered securities at the place or places that we will designate for such purposes. We will make payment to the persons in whose names the debt securities are registered on the close of business on the day or days that we will specify in accordance with the indenture. We will pay the principal of, and any premium on, registered debt securities only against surrender of those debt securities. Any other payments, including payment on any securities issued in bearer form, will be made as set forth in the applicable prospectus supplement. (Section 307)

Restrictive Covenants

The indenture includes the following restrictive covenants:

Limitations on Liens

The indenture limits the amount of liens that we or our Subsidiaries may incur or otherwise create in order to secure indebtedness for borrowed money, upon any Principal Facility or any shares of capital stock that any of our Subsidiaries owning any Principal Facility has issued to us or any of our Subsidiaries. If we or any of our Subsidiaries incur such liens, then we will secure the debt securities to the same extent and in the same proportion as the debt that is secured by such liens. This covenant does not apply, however, to any of the following:

- in the case of a Principal Facility, liens incurred in connection with the issuance by a state or its political subdivision of any securities the interest on which is exempt from United States federal income taxes by virtue of Section 103 of the Internal Revenue Code or any other laws and regulations in effect at the time of such issuance;
- liens existing on the date of the indenture;

Table of Contents

- liens on property or shares of capital stock existing at the time we or any of our Subsidiaries acquire such property or shares of capital stock, including through a merger, share exchange or consolidation, or securing the payment of all or part of the purchase price, construction or improvement of such property incurred prior to, during, or within 180 days after the later of the acquisition, completion of construction or improvement or commencement of full operation of such property or within 180 days after the acquisition of such shares for the purpose of financing all or a portion of such purchase of the property or construction or improvement on it; or
- liens for the sole purpose of extending, renewing or replacing all or a part of the indebtedness secured by any lien referred to in the previous bullet points or in this bullet point if the extension, removal and replacement is limited to all or a part of the property secured by the original lien.

Notwithstanding the foregoing, we and/or any of our Subsidiaries may incur liens that would otherwise be subject to the restriction described above, without securing debt securities issued under the indenture equally and ratably, if the aggregate value of all outstanding indebtedness secured by the liens and the value of Sale and Leaseback Transactions does not at the time exceed the greater of:

- 10% of our Consolidated Net Tangible Assets; or
- 10% of our Consolidated Capitalization.

(Section 1007)

Sale and Leaseback Transactions

A Sale and Leaseback Transaction of any Principal Facility is prohibited, unless within 180 days of the effective date of the arrangement, an amount equal to the greater of the proceeds of the sale or the fair value of the property (“value”) is applied to the retirement of long-term non-subordinated indebtedness for money borrowed with more than one year stated maturity, including our debt securities, except that such sales and leasebacks are permitted to the extent that the “value” thereof plus the other secured debt referred to in the previous paragraph does not exceed the amount stated in the previous paragraph. (Section 1008)

There are no other restrictive covenants in the indenture. The indenture does not require us to maintain any financial ratios, minimum levels of net worth or liquidity or restrict the payment of dividends, the making of other distributions on our capital stock or the redemption or purchase of our capital stock. Moreover, the indenture does not contain any provision requiring us to repurchase or redeem any debt securities or debt warrants or modify the terms thereof or afford the holders thereof any other protection in the event of our change of control, any highly leveraged transaction or any other event involving us that may materially adversely affect our creditworthiness or the value of the debt securities or debt warrants.

Defined Terms

We define “Subsidiaries” as any corporation of which at least a majority of all outstanding stock having ordinary voting power in the election of directors of such corporation is at the time, directly or indirectly, owned by us or by one or more Subsidiaries or by us and one or more Subsidiaries. (Section 101)

We define “Principal Facility” as all real property owned and operated by us or any Subsidiary located within the United States and constituting part of any manufacturing plant or distribution facility, including all attached plumbing, electrical, ventilating, heating, cooling, lighting and other utility systems, ducts and pipes but excluding trade fixtures (unless their removal would cause substantial damage to the manufacturing plant or distribution facility), business machinery, equipment, motorized vehicles, tools, supplies and materials, security systems, cameras, inventory and other personal property and materials. However, no manufacturing plant or distribution facility will be a Principal Facility unless its net book value exceeds 0.25% of Consolidated Capitalization. (Section 1007)

[Table of Contents](#)

We define a “Sale and Leaseback Transaction” as the sale or transfer of a Principal Facility with the intention of taking back a lease of the property, except a lease for a temporary period of less than 3 years, including renewals, with the intent that the use by us or any Subsidiary will be discontinued on or before the expiration of such period. (Section 1008)

We define “Consolidated Net Tangible Assets” as the excess of all assets over current liabilities appearing on our most recent quarterly or annual consolidated balance sheet, less goodwill and other intangible assets and the minority interests of others in Subsidiaries. (Section 101)

We define “Consolidated Capitalization” as the total of all of the assets appearing on our most recent quarterly or annual consolidated balance sheet, less:

- current liabilities, including liabilities for indebtedness maturing more than 12 months from the date of the original creation thereof, but maturing within 12 months from the date of our most recent quarterly or annual consolidated balance sheet; and
- deferred income tax liabilities reflected in such consolidated balance sheet.

(Section 101)

Global Securities

We may issue the securities in whole or in part in the form of one or more global securities that will be deposited with, or on behalf of, a depositary identified in the applicable prospectus supplement.

We may issue the global securities in either registered or bearer form and in either temporary or permanent form. We will describe the specific terms of the depositary arrangement with respect to a series of securities in the applicable prospectus supplement. We anticipate that the following provisions will apply to all depositary arrangements.

Once a global security is issued, the depositary will credit on its book-entry system the respective principal amounts of the individual securities represented by that global security to the accounts of institutions that have accounts with the depositary. These institutions are known as participants.

The underwriters for the securities will designate the accounts to be credited. However, if we have offered or sold the securities either directly or through agents, we or the agents will designate the appropriate accounts to be credited.

Ownership of beneficial interests in a global security will be limited to participants or persons that may hold beneficial interests through participants. Ownership of beneficial interests in a global security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the depositary’s participants or persons that may hold through participants. The laws of some states require that certain purchasers of securities take physical delivery of securities. Those laws may limit the market for beneficial interests in a global security.

So long as the depositary for a global security, or its nominee, is the registered owner of a global security, the depositary or nominee will be considered the sole owner or holder of the securities represented by the global security for all purposes under the indenture. Except as provided in the applicable prospectus supplement, owners of beneficial interests in a global security:

- will not be entitled to have securities represented by global securities registered in their names;
- will not receive or be entitled to receive physical delivery of securities in definitive form; and
- will not be considered owners or holders of these securities under the indenture.

Payments of principal of, and any premium and interest on, the individual securities registered in the name of the depositary or its nominee will be made to the depositary or its nominee as the registered owner of that global security.

Neither we nor the trustee will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests of a global security, or for maintaining, supervising or reviewing any records relating to beneficial ownership interests and each of us and the trustee may act or refrain from acting without liability on any information provided by the depositary.

Table of Contents

We expect that the depository, after receiving any payment of principal of, and any premium and interest on, a global security, will immediately credit the accounts of the participants with payments in amounts proportionate to their respective holdings in principal amount of beneficial interest in a global security as shown on the records of the depository. We also expect that payments by participants to owners of beneficial interests in a global security will be governed by standing customer instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in “street name,” and will be the responsibility of such participants.

Debt securities represented by a global security will be exchangeable for debt securities in definitive form of like tenor in authorized denominations only if:

- the depository notifies us that it is unwilling or unable to continue as the depository and a successor depository is not appointed by us within 90 days;
- we deliver to the trustee for securities of such series in registered form a company order stating that the securities of such series shall be exchangeable; or
- an Event of Default has occurred and is continuing with respect to securities of such series.

Unless and until a global security is exchanged in whole or in part for debt securities in definitive certificated form, it may not be transferred or exchanged except as a whole by the depository.

Registration of Transfer

You may transfer or exchange certificated securities at any office that we maintain for this purpose in accordance with the terms of the indenture. We will not charge a service fee for any transfer or exchange of certificated securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge that we are required to pay in connection with a transfer or exchange. (Section 305)

You may effect the transfer of certificated securities and the right to receive the principal of, and any premium and interest on, certificated securities only by surrendering the certificate representing those certificated securities and either reissuance by us or the trustee of the certificate to the new holder or the issuance by us or the trustee of a new certificate to the new holder.

We are not required to:

- issue, register, transfer or exchange securities of any series during a period beginning at the opening of business 15 days before the day we transmit a notice of redemption of the securities of the series selected for redemption and ending at the close of business on the day of the transmission;
- register, transfer or exchange any security so selected for redemption in whole or in part, except the unredeemed portion of any security being redeemed in part; or
- exchange any bearer securities selected for redemption except if a bearer security is exchanged for a registered security of the same tenor that is simultaneously surrendered for redemption.

(Section 305)

Exchange

At your option, you may exchange your registered debt securities of any series, except a global security, for an equal principal amount of other registered debt securities of the same series having authorized denominations upon surrender to our designated agent.

We may at any time exchange debt securities issued as one or more global securities for an equal principal amount of debt securities of the same series in definitive registered form. In this case, we will deliver to the holders new debt securities in definitive registered form in the same aggregate principal amount as the global securities being exchanged.

[Table of Contents](#)

The depository of the global securities may also decide at any time to surrender one or more global securities in exchange for debt securities of the same series in definitive registered form, in which case we will deliver the new debt securities in definitive form to the persons specified by the depository, in an aggregate principal amount equal to, and in exchange for, each person's beneficial interest in the global securities.

Notwithstanding the above, we will not be required to exchange any debt securities if, as a result of the exchange, we would suffer adverse consequences under any United States law or regulation. (Section 305)

Defeasance

Unless otherwise specified in the prospectus supplement, we can terminate all of our obligations under the indenture with respect to the debt securities, other than the obligation to pay the principal of, and any premium and interest on, the debt securities and certain other obligations, at any time by:

- depositing money or United States government obligations with the trustee in an amount sufficient to pay the principal of, and any premium and interest on, the debt securities to their maturity; and
- complying with certain other conditions, including delivery to the trustee of an opinion of counsel to the effect that holders of debt securities will not recognize income, gain or loss for United States federal income tax purposes as a result of our defeasance.

In addition, unless otherwise specified in the prospectus supplement, we can terminate all of our obligations, with minor exceptions, under the indenture with respect to the debt securities, including the obligation to pay the principal of, and any premium and interest on, the debt securities, at any time by:

- depositing money or United States government obligations with the trustee in an amount sufficient to pay the principal of, and the interest and any premium on, the debt securities to their maturity; and
- complying with certain other conditions, including delivery to the trustee of an opinion of counsel stating that there has been a ruling by the Internal Revenue Service, or a change in the United States federal tax law since the date of the indenture, to the effect that holders of debt securities will not recognize income, gain or loss for United States federal income tax purposes as a result of our defeasance.

(Sections 402-404)

Payments of Unclaimed Moneys

Moneys deposited with the trustee or any paying agent for the payment of principal of, or any premium and interest on, any debt securities that remain unclaimed for two years will be repaid to us at our written request, unless the law requires otherwise. If this happens and you want to claim these moneys, you must look to us and not to the trustee or paying agent.

(Section 409)

Supplemental Indentures Not Requiring Consent of Holders

Without the consent of any holders of debt securities, we and the trustee may supplement the indenture, among other things, to:

- pledge property to the trustee as security for the debt securities;
- reflect that another entity has succeeded us and assumed the covenants and obligations of us under the debt securities and the indenture;
- cure any ambiguity or inconsistency in the indenture or in the debt securities or make any other provisions with respect to matters or questions arising under the indenture, as long as the interests of the holders of the debt securities are not adversely affected in any material respect;
- issue and establish the form and terms of any series of debt securities as provided in the indenture;

Table of Contents

- add to our covenants further covenants for the benefit of the holders of debt securities, and if the covenants are for the benefit of less than all series of debt securities, stating which series are entitled to benefit;
- add any additional event of default and if the new event of default applies to fewer than all series of debt securities, stating to which series it applies;
- change the trustee or provide for an additional trustee;
- provide additional provisions for bearer debt securities so long as the action does not adversely affect the interests of holders of any debt securities in any material respect;
- add guarantees with respect to the securities of such series or confirm and evidence the release, termination or discharge of any such guarantee when such release is permitted by the indenture; or
- modify the indenture as may be necessary or desirable in accordance with amendments to the Trustee Indenture Act of 1939.

(Section 901)

Supplemental Indentures Requiring Consent of Holders

With the consent of the holders of a majority in principal amount of each series of the debt securities that would be affected by a modification of the indenture, the indenture permits us and the trustee to supplement the indenture or modify in any way the terms of the indenture or the rights of the holders of the debt securities of such series. However, without the consent of each holder of all of the debt securities affected by that modification, we and the trustee may not:

- modify the maturity date of, or reduce the principal of, or premium on, or change the stated final maturity of, any debt security;
- reduce the rate of or change the time for payment of interest on any debt security or, in the case of OID debt securities, reduce the rate of accretion of the OID;
- change any of our obligations to pay additional amounts under the indenture;
- reduce or alter the method of computation of any amount payable upon redemption, repayment or purchase of any debt security by us, or the time when the redemption, repayment or purchase may be made;
- make the principal or interest on any debt security payable in a currency other than that stated in the debt security or change the place of payment;
- reduce the amount of principal due on an OID debt security upon acceleration of maturity or provable in bankruptcy or reduce the amount payable under the terms of an indexed debt security upon acceleration of maturity or provable in bankruptcy;
- impair any right of repayment or purchase at the option of any holder of debt securities;
- reduce the right of any holder of debt securities to receive or sue for payment of the principal or interest on a debt security that would be due and payable at the maturity thereof or upon redemption or adversely affect any applicable right to convert or exchange any debt securities into other securities; or
- reduce the percentage in principal amount of the outstanding debt securities of any series required to supplement the indenture or to waive any of its provisions.

(Section 902)

[Table of Contents](#)

A supplemental indenture that modifies or eliminates a provision intended to benefit the holders of one series of debt securities will not affect the rights under the indenture of holders of other series of debt securities.

Redemption

The specific terms of any redemption of a series of debt securities will be contained in the prospectus supplement for that series. Generally, we must send notice of redemption to the holders at least 30 days but not more than 60 days prior to the redemption date. The notice will specify:

- the principal amount being redeemed;
- the redemption date;
- the redemption price;
- the place or places of payment;
- the CUSIP number of the debt securities being redeemed;
- whether the redemption is pursuant to a sinking fund;
- that on the redemption date, interest, or, in the case of OID debt securities, original issue discount, will cease to accrue; and
- if bearer debt securities are being redeemed, that those bearer debt securities must be accompanied by all coupons maturing after the redemption date or the amount of the missing coupons will be deducted from the redemption price, or indemnity must be furnished, and whether those bearer debt securities may be exchanged for registered debt securities not being redeemed.

(Section 1104)

On or before any redemption date, we will deposit an amount of money with the trustee or with a paying agent sufficient to pay the redemption price. (Section 1105)

If less than all the debt securities are being redeemed, the trustee shall select the debt securities to be redeemed using a method it considers fair and appropriate, by lot or pro rata, in each case subject to the applicable procedures of the depository. (Section 1103) After the redemption date, holders of debt securities which were redeemed will have no rights with respect to the debt securities except the right to receive the redemption price and any unpaid interest to the redemption date. (Section 1106)

Concerning the Trustee

Deutsche Bank Trust Company Americas is the trustee under the indenture. Deutsche Bank Trust Company Americas has performed and will perform other services for us and certain of our subsidiaries in the normal course of its business.

Governing Law

The laws of the State of New York govern the indenture and will govern the debt securities. (Section 112)

DESCRIPTION OF COMMON STOCK

We are authorized to issue 5,000,000,000 shares of common stock and 500,000,000 shares of preferred stock, without par value. As of January 31, 2020, there were 1,432,943,006 shares of common stock outstanding and 44,764 shareholders of record, and no shares of preferred stock outstanding.

The principal stock exchange on which our common stock is listed is The Nasdaq Global Select Market under the symbol “MDLZ.” All outstanding shares of common stock are validly issued, fully paid and nonassessable.

The following description of the terms of our common stock is not complete and is qualified in its entirety by reference to our amended and restated articles of incorporation and our amended and restated by-laws, each of which is incorporated by reference as exhibits to the registration statement on Form S-3 of which this prospectus is a part.

Voting Rights

The holders of our common stock are entitled to one vote on all matters submitted for action by our shareholders. There is no provision for cumulative voting with regard to the election of directors.

Dividend and Liquidation Rights

Subject to the preferences applicable to any shares of preferred stock outstanding at any time, holders of our common stock are entitled to receive dividends when and as declared by our board of directors from funds legally available therefore and are entitled, in the event of a liquidation, to share ratably in all assets remaining paid after payment of liquidation.

Other Rights

The holders of our common stock have no preemptive rights and no rights to convert their common stock into any other securities, and our common stock is not subject to any redemption or sinking fund provisions.

The power to alter, amend, or repeal the by-laws or adopt new by-laws is vested in the board of directors, but the by-laws may be repealed or changed by the shareholders. New by-laws may be adopted by the shareholders and they may prescribe that any by-laws made by them shall not be altered, amended or repealed by the board of directors.

Anti-Takeover Provisions of our Articles of Incorporation, our By-Laws and Virginia Law

Various provisions contained in our amended and restated articles of incorporation, our amended and restated by-laws and Virginia law could delay or discourage some transactions involving an actual or potential change in control of Mondelēz International or our management and may limit the ability of our shareholders to remove current management or approve transactions that our shareholders may deem to be in their best interests. Provisions in our amended and restated articles of incorporation and our amended and restated by-laws:

- authorize our board of directors to establish one or more series or classes of undesignated preferred stock, the terms of which can be determined by the board of directors at the time of issuance;
- do not authorize cumulative voting;
- provide that only a majority of the board of directors or the chairman of the board of directors may call a special meeting of the shareholders, except that the board of directors must call a special meeting upon the request from at least 20% of the combined voting power of the outstanding shares of all classes of our capital stock;
- provide an advanced written notice procedure with respect to shareholder proposals and shareholder nomination of candidates for election as directors; and

[Table of Contents](#)

- provide that our directors may fill any vacancies on our board of directors, including vacancies resulting from a board of directors resolution to increase the number of directors.

In addition, Virginia law contains provisions governing material acquisition transactions (“affiliated transactions”) between us and any holder of more than 10% of any class of its outstanding voting shares (an “interested shareholder”). In general, these provisions prohibit a Virginia corporation from engaging in an affiliated transaction with an interested shareholder for a period of three years following the date such person became an interested shareholder, unless (1) a majority of the disinterested directors and the holders of at least two-thirds of the remaining voting shares approved the affiliated transaction or (2) before the date that the person became an interested shareholder, a majority of the disinterested directors approved the transaction that resulted in the person becoming an interested shareholder. After three years, any such transaction must be at a “fair price,” as statutorily defined, or must be approved by the holders of at least two-thirds of the voting shares, other than those beneficially owned by the interested shareholder or by a majority of the disinterested directors. Affiliated transactions subject to this approval requirement include mergers, share exchanges, material dispositions of corporate assets not in the ordinary course of business, the sale of shares of the corporation or any of its subsidiaries to an interested shareholder having an aggregate fair market value of greater than 5% of the aggregate fair market value of the corporation’s outstanding shares, any dissolution of Mondelez International proposed by or on behalf of an interested shareholder or any reclassification, including reverse stock splits, recapitalization or merger of Mondelez International with its subsidiaries, that increases the percentage of voting shares beneficially owned by an interested shareholder by more than 5%.

The shareholders of a Virginia corporation may adopt an amendment to the corporation’s articles of incorporation or by-laws opting out of the provisions of Virginia law governing affiliated transactions. Neither our amended and restated articles of incorporation nor our amended and restated by-laws contain a provision opting out of the provisions of Virginia law governing affiliated transactions.

Virginia law also contains provisions relating to “control share acquisitions,” which are transactions causing the voting strength of any person acquiring beneficial ownership of shares of a Virginia public corporation to meet or exceed certain threshold percentages (20%, 33 1/3% or 50%) of the total votes entitled to be cast for the election of directors. Shares acquired in a control share acquisition have no voting rights unless (1) the voting rights are granted by a majority vote of all outstanding shares other than those held by the acquiring person or any officer or employee director of the corporation or (2) the articles of incorporation or by-laws of the corporation provide that these Virginia law provisions do not apply to acquisitions of its shares. The acquiring person may require that a special meeting of the shareholders be held to consider the grant of voting rights to the shares acquired in the control share acquisition. As permitted by Virginia law, our amended and restated articles of incorporation contain a provision opting out of the Virginia anti-takeover law regulating control share acquisitions.

The transfer agent and registrar for our common stock is EQ Shareowner Services.
